

Summer Camp 2011!

1st Session: June 13th - July 15th

Join Mango and explore the world of Bugs!

They're creepy, and they're crawly, some are hairy, but not scary! Children will create their own bugs, learn about bugs that benefit us and about different bugs around the world. The activities and exercises will help children to develop social, motor, language, and cognitive skills through stories, art, music and games. Come join us for the wiggly, squiggly fun!

2nd Session: July 18th - August 20th

Join Mango and enjoy The Great Outdoors!

Our Outdoor Explorers will discover the wonders of this planet we live in. We'll uncover fascinating facts about nature, animals and weather and learn about some ways we can enjoy the outdoors like camping and sports. The class will encourage exploration and problem-solving, and an awareness of how diverse the world is beyond our home.
